# Preventative Measures to Adversity (PMA) Framework

A research and data informed framework designed to support education professionals to respond to the complexities faced in daily practice and mitigate the risk of diminished health and wellbeing outcomes.

#### **Context Report**

Providing a comprehensive analysis of the factors influencing teaching, learning and wellbeing within the target environment.

#### **Baseline Survey**

Adversity and Wellbeing baseline survey to establish a solid foundation for addressing the unique challenges faced by individuals and communities.

#### **Core Learning**

Whole staff or core group learning day/s encompassing both theoretical foundations and practical applications.

## Co-designed Coaching & Implementation

Real-time coaching on the ground or in the virtual classroom.

# Post Delivery Check-ins

A platform for ongoing capacity building and support.

## Change Impact Assessment

A means to track progress and growth, remaining responsive to the evolving needs of the target environment and the education professional/s.
