

## Classroom Responsiveness Checklist (CRC) for education professionals

The CRC is designed to enhance teaching effectiveness by providing a simple framework for evaluating and improving responsiveness to learner needs and classroom dynamics. By looking at key areas such as student engagement, behaviour responsiveness, instructional adaptability, emotional support and professional reflection, the checklist offers a structured approach for education professionals to identify strengths and address areas for growth in their ability to create the conditions for students to do their best.

This tool promotes a proactive and reflective teaching practice, ensuring that education professionals are effectively considering how they respond to diverse learning needs, classroom behaviour and foster supportive learning environments.

	Rarely	Sometimes	Often	Very Often
<b>Student engagement</b>				
<b>Interest and participation:</b> I regularly use a variety of instructional strategies to keep students engaged.
